

# DEFENCE

EXPERT KNOWLEDGE / UNPARALLELED DELIVERY

## INTRODUCING REDS GROUP

We provide HazMat, fuel and environmental-based services to organisations across all UK Government facilities including nationwide defence infrastructure; REDS staff are pre-approved for working on sensitive security clearance sites, ensuring our ability to carry out site visits and works unescorted.

Our priority is delivering a fast, effective service and enhancing our clients' reputations with their own customers, whether that be DIO or any other Government department.

GROUP

## DEFENCE SERVICES

### RESPONSE

---

Emergency incident and spill response

---

Emergency storage tank and pipework maintenance and inspection

---

Spill equipment and remediation systems

---

Accredited response training to Marine Coastguard Agency (MCA) standards

---

MCA marine and shoreline spill response Tier 1 and 2

---

### ENVIRONMENTAL

---

Phase 1 desk top surveys

---

Phase 2 intrusive ground investigations

---

Phase 3 Options appraisal and remediation systems development planning and installation

---

HazMat consultancy, air monitoring and sampling

---

GPR, utility and topographical surveys

---

Human and environmental health risk assessments

---

Environmental Impact Assessment (EIA) and Sustainability Appraisal (SA/SEA)

---

Sensitivity mapping and GIS

---

Occupational hygiene

---

### DECOMMISSIONING & INSTALLATION

---

MTFI and BFI replacements

---

Storage tank decommissioning

---

Pipework and associated equipment decommissioning

---

Storage tank and pipework installation, maintenance, cleaning and inspection

---

Ground remediation

---

Fuel and oil processing and recovery

---

Confined space services

---

Planned Preventative Maintenance (PPM) tasks

---

# RECENT PROJECTS

REDS' nationwide coverage means our in-house teams are able to offer our complete range of services throughout the UK. Below are examples of recent projects undertaken by REDS to highlight our project capabilities.

## NORTHEAST

### PROJECT: BFI TANK

#### DESCRIPTION

Environmental investigation for loss of fuels.

#### WORKS

Ground investigation, sampling and mechanical excavation of trial pits as required to determine the possible source and extent of contamination in the area BFI slops tank, to determine potential contamination ingress to chambers and surface water drains.

## SOUTHWEST

### PROJECT: BFI TANK

#### DESCRIPTION

BFI internal and external tank clean, blasting and remedial works.

#### WORKS

Manned entry jet wash tank clean and certify gas free on 2 number BFI prior to shot blasting to SA 2.5 standards, apply sections of 350-400-micron Dura-Plate UHS to repair areas ensuring integrity, external and internal coating with approved Macropoxy. Completion of project on installation of new fuel probes and required ancillary equipment.

## SOUTHWEST

### PROJECT: MTFI SITE

#### DESCRIPTION

Decommission of an old and installation of a new Mechanical Transport Fuel Installation (MTFI).

#### WORKS

Empty, clean and decommission underground fuel storage tanks, decommissioning of fuel pumps and pipework, demolition of buildings and canopy, divert base firewater main supply around site, reinstate groundworks, drainage and civils, install new above ground fuel storage tanks and gantry with new pipework, fuel kiosk, ground fuel management system, lighting, electrical supply and lightning protection.

## SOUTHWEST

### PROJECT: AIRFRAME MAINTENANCE

#### DESCRIPTION

Chromate environmental testing and verification.

#### WORKS

Environmental monitoring and testing for Hexavalent Chromium (Chromate), within the airframe maintenance shed, using onsite swab tests and XRF scanning to verify areas of contamination and ongoing cleaning processes. Ongoing project over a period of months to ensure safe areas of working.

# CONTACT US

At REDS, we believe our people are our strongest asset; our level of in-house expertise and experience within our given sectors ensures that all projects are delivered correctly, on time, within budget and exceeding client expectations.

**Lloyd Burnard**  
Owner / Managing Director

lloyd.burnard@redsgroup.co.uk

Lloyd established REDS Group in 2017 – his 21st year in the fuel sector. His track record in delivering high-profile and high-risk projects on time whilst exceeding client and third-party expectations is second to none.

**Steve Giles**  
Associate Director

steve.giles@redsgroup.co.uk

Steve has held senior Distribution Management positions in the Insurance, Banking and Consultancy industries and has been involved in fuel spill response, environmental clean-up and fuel storage equipment decommissioning since January 2017. He manages REDS' overall relationship for our Defence Services and in particular across the South East and Central Primes.

**Brian Nelson**  
Associate Director

brian.nelson@redsgroup.co.uk

Brian has held senior Relationship Management roles in a number of industry sectors and has a wealth of experience in the fuel sector. He manages REDS' relationships within our Defence Services and particularly across the South West Prime.

**Nigel Friend**  
Associate Director – Projects

nigel.friend@redsgroup.co.uk

Nigel has an unrivalled depth of knowledge and expertise in the construction, demolition and petroleum industries. With over 35 years' experience, he has built a strong reputation for delivering complex, high-value decommissioning projects for clients including the NHS, Local Authorities, HM Prison Service and the MOD.

**David Harford**  
Surveyor

david.harford@redsgroup.co.uk

David is an experienced and industry-respected Project Manager and Surveyor, who has delivered high-value and complex fuel and HazMat installation decommissioning, refurbishment and installation projects across all public-owned departments throughout the UK for over 25 years.

**Shane Stanley**  
General Manager

shane.stanley@redsgroup.co.uk

Shane is an experienced and well-respected senior Project and General Manager, having worked on complex forecourt decommissioning projects since the early 00's. Shane has progressed his skills to Project Managing and undertaking major terminal tank decommissioning projects, such as Blandford Garrison, West Moors' 2 x 1-million-litre tank decom in 2015.
