

SHANE STANLEY

SHEQ & PROJECTS MANAGER

PROFILE

Shane has established himself as a well-respected and experienced senior projects manager within petroleum industry since beginning as a plant operator on forecourt decommissioning projects in 2006.

Shane's core skills, knowledge and understanding of the petroleum industry, fuel storage regulations and safe working practices coupled with his attention to detail and organisation has enabled him to adapt his skills to major projects management and senior SHEQ roles. Where his ability to organise, price and manage every aspect of major projects with values in excess of £2million has been continually proven.
