Services
we offer

REDS

Leaders in environmental risk management

REDS were engaged to complete a potentially challenging project to replace underground fuel tanks with above-ground tanks, pumps, fuel management, and a new building.

REDS' experience and expertise ensured that it was a smooth delivery and successful project resulting in a delighted client.

PROJECT MANAGER
DIO CONTRACTOR

Civil Engineering

REDS Group undertakes civil engineering and construction services including building, excavations, reinstatement, infrastructure projects and general building tasks.

Our civils department has a wealth of experience delivering complex infrastructure and HazMat storage facility projects throughout the UK for Government projects on defence, prison, and NHS Trust site's as well as unique projects on lighthouses and those in remote locations.

Our understanding of risks, both above-ground and below-ground is second to none, and our standard safe working practices are industry renowned.

Services include:

Fuel island and pipework installs and reinstatements

Building, infrastructure, canopy and pump island demolition

Containment drainage such as separators and linear drains

Concrete hardstanding and final landscaping

Concrete plinths for above-ground tanks and heavy loads

Underground services ready for our installation teams to install data and power cables, pipework, pumps, fuel monitoring and leak detection systems

Ground remediation, excavations and reinstatement

Total forecourt redevelopment from demolition to final fit-out ready to hand over for use

Main contractor for construction phase of projects

Verification sampling and long-term monitoring (surface water, air quality, compliance)

COMPEX MECHANICAL AND ELECTRICAL ENGINEERING

REDS Group provides specialist services to civil engineers, architects, designers and consultants involved in asset strategy and operations management.

Our focus is on delivering an effective solution whatever your clients' needs, whether they are public sector or corporate enterprises; we never forget that our role is to support you in efficiently delivering a specialist part of your wider programme.

Services include:

Bespoke design and installation of electrical distribution equipment for forecourts

Repairs to dispensers, pumps, signs, floodlights and more

Tank gauging systems and high-level alarm systems

Lightning protection to earthing systems

Canopy and forecourt lighting

Leak detection systems

Full mains panel design, build and installation service

Planned Preventative Maintenance (PPM)

EV charging

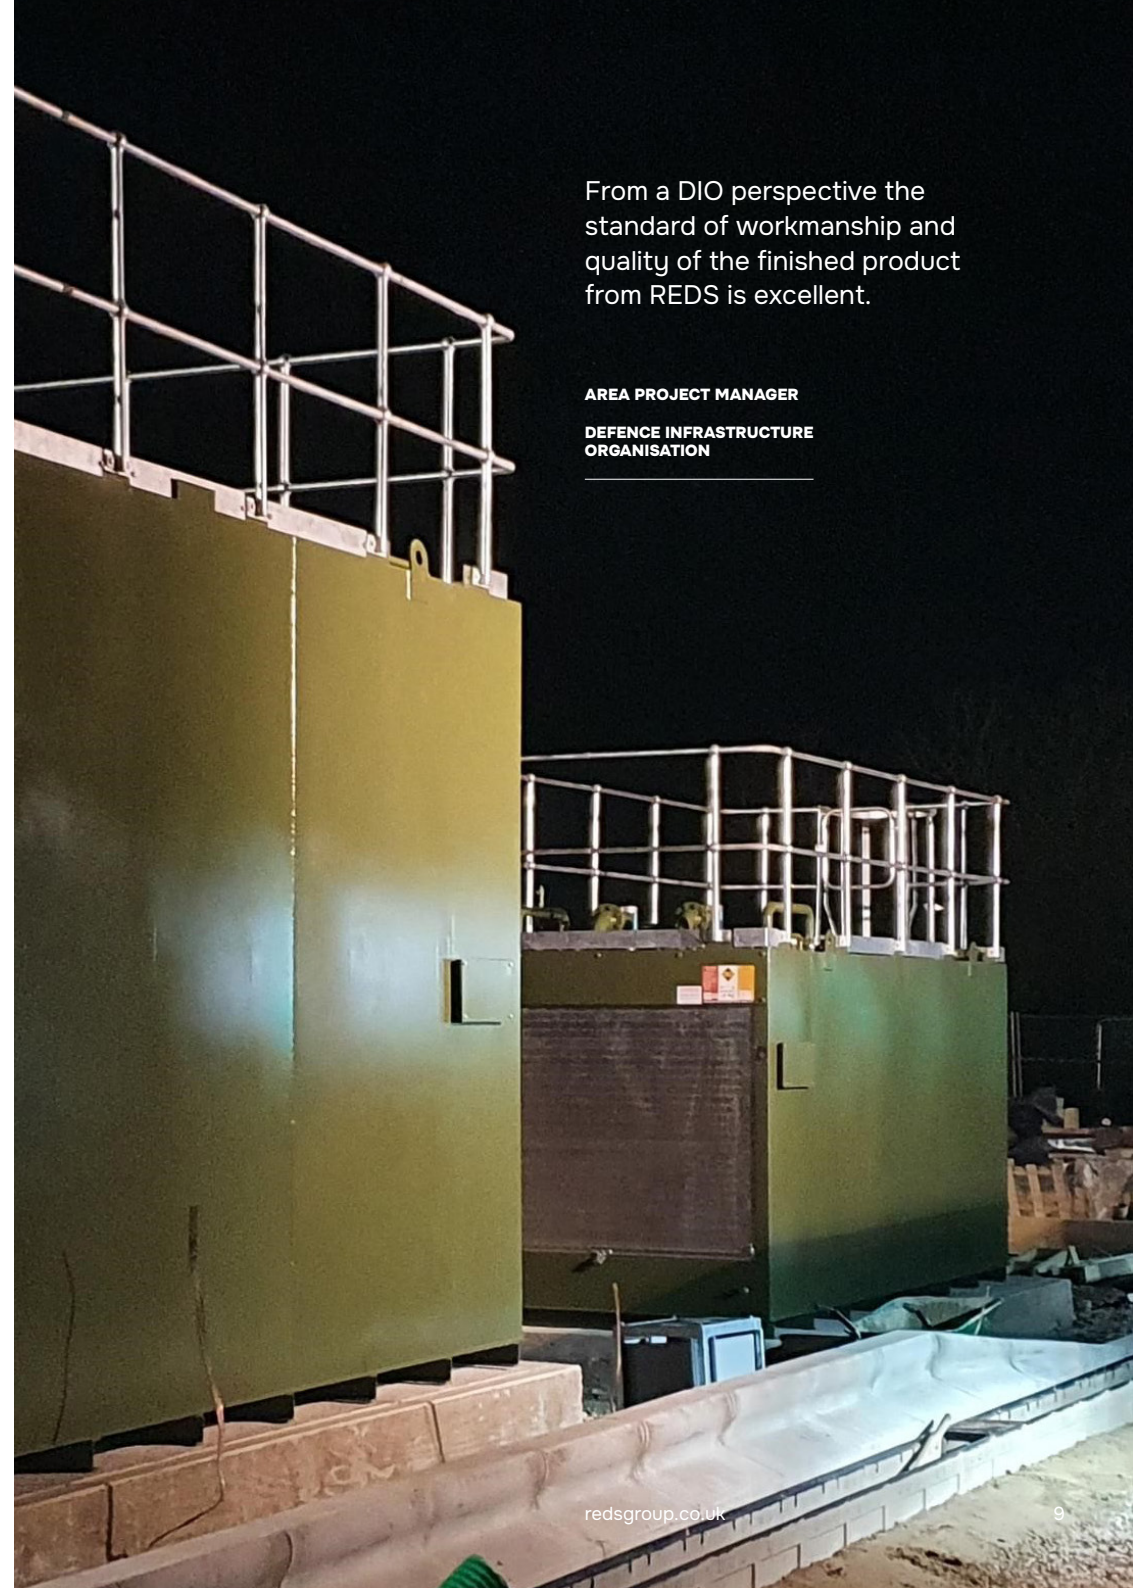

From a DIO perspective the standard of workmanship and quality of the finished product from REDS is excellent.
